

**Starter**

Started as a typeface for personal use, Starter is a grown linear neo-grotesk family including a massiv range from Uprights to Italics and Monostlyes that combine high quality craftsmanship with contemporary aesthetics. Starter works perfectly well for smaller text sizes as well as for bigger headline sizes.

Starter originally designed in 2017 as Sonntags Grotesk while the Bachelor-thesis, was refined and further developed at the beginning of 2018. back in 2018, the Font first Cuts were Light and Bold, followed by Regular Cut and later on corrsponding Italics. The revisited family comes in 30 styles in total (ten weights with corresponding italics and monos), each style comprises an extended Latin character set and a number of OpenType features.

A starter is a player who is chosen to begin a game as part of the team's initial lineup. Starters are usually chosen based on their overall ability, experience, and specific skills such as athleticism, technical skills, tactical understanding, and their ability to execute game plan. Being a starter is often seen as a mark of distinction and responsibility, as starters are expected to set the tone for the game, provide leadership on the field, and make significant contributions to the team's success.
