

The pricing structure is determined by the number of individuals employed by the License Owner. The License Owner is the individual or legal entity for whom the Font Software is used – not the person, studio, or agency working with it.

The base prices listed on the right apply to License Size XS, intended for single users.

Additionally, there are licenses available for companies with up to 5 people (S), 10 people (M), 50 people (L), and 100 people (XL). The prices scale accordingly by multiplying the base prices with the factor of the respective license size.

XS	1 person	X	1,0
S	< 5 persons	X	1,5
M	< 10 persons	X	2,0
L	< 50 persons	X	3,0
XL	< 100 persons	X	5,0
